

INTERNET AND CELL PHONE SAFETY

Greenfield Middle School conducted two very important presentations recently and we want to be sure you are all aware of these and the information that follows. Your child was to bring home a letter on **Thursday, November 5th** explaining these presentations and a Parent Link phone call was conducted that evening regarding the upcoming events.

In case you were not aware of these presentations, please know that all students viewed a presentation by Detective Doug Tweedie of the Greenfield Police Department on **Friday, November 6th**. The goal of the information presented was to raise student awareness of internet and cell phone safety.

In addition, Detective Tweedie conducted a special evening presentation for our parents on **Tuesday, November 10th** at 6:30 PM in the GMS library. Again, the goal of the information presented was to help parents keep their children safe while using the internet and cell phones.

Below are links to the hand-outs Detective Tweedie gave parents at the November 10th presentation. Please review the information and don't hesitate contacting him or the Greenfield Police Department if you have any concerns or believe your child is in danger.

I thank all the parents who were able to attend the evening session and again, please feel free to call me if you have any questions.

Becky Gordon

Assistant Principal

Greenfield Middle School
